**Bangkok Bank joins Smart Taxi to offer convenient, safe and quick fare payments
via QR Code and a bonus of up to Baht 500 for taxi drivers**

Bangkok Bank Executive Vice President Prassanee Ouyiamaphan (2nd from right) joined with Transport Minister Arkhom Termpittayapaisith (2nd from left), Department of Land Transport Director General Sanit Promwong (3rd from right), and Smart Taxi Managing Manager Pised Thinnakorn Na Ayutaya (far left) to launch the ‘Pay for Taxi Easily with QR Code’ project. The new service accepts QR Code payments from Bangkok Bank to provide convenience and enhance service efficiency. It is quick and safe for taxi drivers and passengers while eliminating the burden of carrying cash and the time-consuming task of finding change. The bank also offers free registration and a bonus of up to Baht 500 for taxi drivers in the Smart Taxi network who accept payments via Bangkok Bank QR Code on Bualuang mBanking and other Thailand mobile banking applications. The services are expected to resonate well with digital lifestyles while supporting Thailand’s move towards a cashless society.
