

**Faisal Rachman** is a highly accomplished Indonesian economist with more than 15 years of experience spanning government institutions, banking, international consultancy, and academia. His professional focus lies in macroeconomics, monetary policy, and financial market analysis. Currently serving as Vice President/Department Head of Macroeconomic and Financial Market Research at Permata Bank, Faisal plays a pivotal role in shaping research strategies that inform executive decision-making and risk management practices within the institution. He is renowned for his analytical rigor, deep insight into economic dynamics, and ability to translate complex economic data into practical policy and investment recommendations.

Faisal began his career in Indonesia's Ministry of Trade, analyzing domestic trade policies. He later contributed as a senior researcher at the Institute for Economic and Social Research, Faculty of Economics and Business, University of Indonesia (LPEM FEB-UI), where he led various impactful studies for national and international organizations, including the World Bank, USAID, and Indonesia Eximbank.

His banking career took shape at Bank Mandiri, one of Indonesia's largest banks, where he rose to the role of Senior Economist/Assistant Vice President. As the Team Leader for macroeconomic research in the Office of the Chief Economist, Faisal developed economic forecasts and stress-testing scenarios, advised top-level executives, and represented the bank in national and international media. During his tenure, he consistently ranked among Bloomberg's top economic forecasters, securing first place across several key indicators including inflation, policy rates, and trade balances.

In his current leadership role at Permata Bank, Faisal oversees macroeconomic and financial market research through the Permata Institute for Economic Research (PIER). His responsibilities include conducting in-depth analyses of global and domestic economic trends, forecasting macroeconomic variables for capital planning and regulatory compliance, and providing insights to support investment strategy and risk management.

Faisal holds a Master of Public Policy in Economic Policy and Analysis from the Lee Kuan Yew School of Public Policy, National University of Singapore, and a Master of Science in Economics from the University of Edinburgh, the United Kingdom. He is also a British Chevening Scholar and has received multiple awards for academic excellence, research, and public speaking at international policy forums.

He is an active economic commentator, regularly publishing op-eds and analyses in leading media outlets such as *The Jakarta Post*, *Bisnis Indonesia*, and *Kontan*. His articles address a wide range of issues including inflation, fiscal policy, monetary strategy, and investment trends, reflecting his commitment to public discourse and knowledge sharing.
