Other Information

Investment in Mutual Fund **is not** the same as bank deposits.

What are you about to invest in?

Investment Policy:

The Fund focuses on the medium-to-long-term investments in securities of listed companies with good fundamental which the Fund Manager expects that they will have total returns in the top 10. The Fund shall invest or hold securities of listed companies averaged in an accounting year not less than 80% of the NAV.

For the remaining portion, the Fund shall invest in fixed income instruments, deposit or securities or other assets as specified or approved by the Office of the SEC. Nevertheless, the Fund shall not invest in derivatives and structured note.

Fund Management Strategy:

The Fund expects returns higher than the Benchmark. (Active Management)

Who is suitable for this fund?

- The investors who can accept high price fluctuation of the securities that the Fund invests, which may increase or decrease until lower than the investment value and cause loss.
- The investors who can invest in the medium to long-term with expecting long-term returns higher than generally investing in fixed income instruments.

What kind of investor is **not suitable for this Fund?**

The investors who aim to receive certain amount of return or protect full amount of principal.

What you should do if you don't understand investment policy and risks of this Fund.

- Read the full Prospectus or inquire from the selling agents and the Management Company.
- **Do not invest without sufficient understanding on the characteristics and risks of this Fund.**

Special Risk Considerations

Important Warnings

- In the event that there is any redemption of Investment Units more than two-third of the total investment units sold, the Management Company shall use its discretion to dissolve the Fund and stop accepting subscription/ redemption order.
- In the event of unusual circumstances, investors may not be able to redeem the Investment Units or receive the redemption proceeds within the period of time specified in this Prospectus.
- The Fund's performance does not relate to the financial status or performance of the Management Company or the Selling Agents.
- Any person or the same group of persons may/will hold investment units of the Fund more than one-third of the total investment units. Thus, if they redeem the investment units, the Fund may have a risk resulting to dissolve the Fund. Investors can review such information at www.bblam.co.th.
- In the event that the Management Company has entered into an obligation or agreement with a foreign state and/or the government of a foreign state or if it is required to comply with a law or a regulation of a foreign state regardless of the effective date of such obligation (e.g. the United States Foreign Account Tax Compliance Act (FATCA)), the Unitholder(s) acknowledge and agree that the Management Company may act or perform its obligation according to the relevant law and/or regulation to which the Management Company is subject, including but not limited to disclosing information of the Unitholder(s) or withholding and withholdable payment payable to the Unitholder(s), and may act or perform any other action necessary for complying with such relevant law and/or regulation to which the Management Company is subject.

Risk Level of the Mutual Funds

Note: The Fund has a net exposure in equities, averaged in an accounting year not less than 80% of the NAV.

More Explanation

Risk Factors

- **Market Risk** means the risk that the values of securities which the Fund has invested may increase or decrease due to outside factors such as economic/investment situations, political factors both internally and internationally which could be considered from the Standard Deviation (SD) of the Fund. If the Fund has a high SD, it is an indicator that the Fund has high a fluctuation from the changes in the prices of securities.
- **High Issuer Concentration Risk** means the risk determined by concentrated investment in instruments of any issuer, counterparty or other obligated person of such instrument or contract more than 10% of NAV.
However, such concentrated investment does not include the case of investing in the following assets:
 1. Thai government fixed income instruments
 2. Foreign government instruments with investment grade credit rating.
 3. Deposits or equivalent instruments that person who accept deposits or the issuer with investment grade credit rating.
- **High Sector Concentration Risk** means the risk determined by concentrated investment in some specific sectors more than 20% of the NAV. In the events of unusual circumstance that affect the sector, the Fund may have higher volatility performance compare to Funds with more diversified sectors.

Portfolio Turnover Ratio (PTR) is calculated from the lower amount between sums of value of buying and selling assets of the Fund in a past accounting period divided by averaged net asset value in the same period. It is beneficial for the investors to acknowledge about trading values and the Fund's strategy. In example, the passive fund shall have low PTR, while the active fund shall have high PTR. Assets that are used in calculating PTR shall have liquidity for investment such as equity, bonds etc.
